MODEL NO.

#### WHAT WE PROVIDE

- Mounting Hardware
- Crossbar plate
- LED

#### WHAT YOU NEED

- Screwdriver
- Wire Cutters
- Wiring Supplies as Specified
   by Electrical Code

#### **GENERAL INFORMATION**

All electrical connections must be in accordance with all ordinances, Local and the U.S. National Electrical Codes (NEC). These fixtures are intended for mounting to a standard 4" metal octagon outlet box. The box must be directly supported by the building structure and U.L. Recognized.

#### STEP BY STEP INSTRUCTIONS

Before starting your installation disconnect the Power by turning off the Circuit Breaker or by removing the fuse at the fuse box. Just turning the light off at the light switch is not sufficient to prevent electrical shock.

1

# PREPARE FIXTURE AND MOUNT CROSSBAR PLATE

If there is an existing fixture remove it.

Expose the supply wires from the J-box.

Mount the crossbar to the J-box with the supplied screws.

MAKE WIRE CONNECTIONS

Gently pull the supply wires through the hole in the

crossbar. Connect the black supply wire to the black fixture wire. Secure with the supplied wire nuts.

Connect the white supply wire to the white fixture wire. Secure with the supplied wire nuts. Attach the green J-Box wire around green hexagonal head screw or connect it to the green supply grounding wire of the fixture.

Secure all wires with UL Certified electrical tape (not supplied). Tuck all wires carefully into the J-Box.

2

#### **MOUNT THE FIXTURE**

Align the fixture holes with the crossbar screws and secure with the supplied screw nipples.

\*\* This fixture is wet location rated. In order to ensure that moisture does not enter the outlet box and cause a short circuit, clear caulking should be used to seal the space between the fixture mounting bracket and the wall. Ensure that a space is left at the bottom to allow for the escape of moisture. It is recommended that Outdoor Silicon Sealant is used for that purpose\*\*

4

RESTORE THE ELECTRICITY AND CHECK THE OPERATION OF YOUR NEW ACCESS LIGHTING FIXTURE

CAUTION If the fixture is to be removed or replaced, please ensure that the electricity is switched off and that the fitting is cool before touching it.
